6. Features and Functionality
7. Result and Screenshot
8. Conclusion
9. Githup Link

Problem statement

- Traditinal portfolio often fail to showcase student creativity and achievement effectively how can we create a more engaging and interactive platform for students

Project overview

A digital platform For students to Showcase their creative work ,project, and achievements. The platform aims to provide a user_ friendly interface, coutomizable templates, and interactive
End Users

- Students*: Showcase creative work, projects, and achievements
- Teachers*: Evaluate student progress, provide feedback, and track growth
- Parents*: View child's progress, achievements, and stay updated

Portfolio Design And Layout

- ▶ Customizable templates
- ▶ Drag-and-drop functionality
- ▶ responsive design

Tools and Technologies

- HTML/CSS
- JavaScript
- database management(e. G., my SQL)
- Front-end framework(e. G., React, Angular)

Features and functionality

- User registration and login
- Portfolio creation and customization
- project show cash and gallery
- feedback and rating system

Conclusion

The creative student portfolio platform provides a unique opporunity for students to show case their creativity and achievement with its user – friendly interface and interactive feature, it has the potential to revolutionize the way student present their work.
